-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed 4/8/04 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. The foreign patent documents were not found in the parent application as indicated by applicant, please send copies.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 21-35 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Regarding at least claims 21 and 29, the humerus, acromion, and glenoid surface which are naturally occurring non-statutory subject matter is positively claimed. It is applicant's duty to remove all positively claimed non-statutory subject matter from all claims including additional body parts such as the medullary canal.

Art Unit: 3738

As far as the scope of the claims can be determined the following art rejection is made of record.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21-35 are rejected under 35 U.S.C. 102(b) as being anticipated by Stroot (3,979,778).

Stroot teaches an assembly comprising:

a humeral prosthesis having (i) a prosthetic stem component 22 securable within said resected natural humerus, and (ii) a prosthetic head component 20 including a glenoid-bearing portion and an acromion-bearing portion together defining an outer bearing surface greater than 190 degrees and about 220 degrees,

wherein, during abduction of said resected natural humerus, (i) said acromion-bearing portion contacts and bears directly against said natural acromion, and (ii) said glenoid-bearing portion contacts and bears directly against said glenoid surface.

Regarding the prosthetic glenoid surface, see element 10.
